## THE TRUTH ABOUT ISRAEL

By Candy Giles & Barbara Sieber

*Genesis 28:13,14: The Lord spoke to Jacob saying, “I am Adonai, the God of your father Abraham and Isaac. The land on which you lie, I will give it to you and to your seed...and you will burst forth to the west and to the east and to the north and to the south.”*

The Jewish descendants of Jacob have been in Israel since 2000 BC. The Jewish nation of Israel was at its height under King Solomon approximately 970-931 BC.

The nation later had many occupying conquerors/colonizers, such as the Assyrians, Alexander the Great, and the Roman Empire. In 70 AD the Romans destroyed the Jewish temple and the people dispersed. The land was then renamed to Palestine (referring to the Philistine enemies of Israel) as an insult. But some Jews remained. It never ceased being their homeland. The Jews of the Diaspora settled in Europe, the Middle East, Asia, and Africa, but never lost hope of someday returning—as they would say at the end of Passover, “next year in Jerusalem.”<sup>(1)</sup>

Greater numbers of Jews began returning to the land in the late 1800s. Discrimination in Europe and pogroms in Russia increased their desire to go *home*. The land they returned to was dry, desolate, untended, and sparsely populated with some Jews and Bedouin Arabs—both referred to as “Palestinians”. The Jews developed settlements and thriving agriculture. In 1948 the nation of Israel was reborn. Surrounding Muslim nations immediately attacked, expecting to destroy the new nation, but they were miraculously defeated. From the day Israel was created, there has been opposition.<sup>(2)</sup>

On October 7, 2023, the terrorist group Hamas—which rules the Gaza Strip—went into Israeli settlements on a horrific rampage of torture and murder of men, women, children, and babies. Hamas has released footage of them beheading captured soldiers.<sup>(3)</sup> At the time of this writing, 32 Americans have been killed.<sup>(4)</sup> Hamas also attacked a concert of young people, killing at least 260 and taking many hostages.<sup>(5)</sup>

As Israel began to defend herself, ill-informed college students,<sup>(6)</sup> a few congresswomen<sup>(7)</sup>, and anti-Semites worldwide celebrated the wicked attacks, calling for Israel to stop defending herself. These people have been holding false beliefs, victims themselves of brainwashing.<sup>(6)</sup>

### MISCONCEPTIONS #1: THE JEWS “COLONIZED” ISRAEL

They are indigenous people who returned to their tiny ancestral homeland.<sup>(8)</sup> (If the Iroquois nation took over New York again, would they be considered “colonizers?”)

The Arabs in the land came from other nations. In the book, [From Time Immemorial](#), historian and journalist Joan Peters explains that “Britain, the mandatory power [to rule over the land of Palestine as established by the League of Nations], winked at and even encouraged Arab immigration into Palestine between the two World Wars; that by disguising the Arab immigrants as “indigenous native Palestinian Arabs,” the British justified their restrictions on Jewish immigration and settlement, dooming masses of European Jews to destruction in the Nazi camps.”

As true colonization goes, the Arab Muslims from Mecca in Saudi Arabia colonized the entire Middle East starting in 600 AD.

(continued on page 4)

Misconception #2: Israel is an apartheid state.

## A RECAP: THE SUMMIT FOR HEALTH AND WELLNESS By Candy Giles

The Summit that was held at Bethel Christian Fellowship on October 21 was a sobering look at where we are as a nation in terms of our freedom and loss of Judeo-Christian values. Organizer Shannon Joy spoke inspiringly that God only needs a small army or a few courageous people to stand against evil. A prominent reporter called it “one of the biggest stories of her lifetime” and “the biggest story on Earth that night”!(<sup>1</sup>)

Many of the speakers emphasized the importance of our involvement, no matter how small. (The website [UnitingNYS.com](https://www.unitingnys.com) has many suggestion on how we can get involved.) If unable to act, one can give to candidates or organizations that are Constitutional.

Two well-known speakers were Dr. Robert Malone, inventor of the mRNA vaccine technology, and pathologist Dr. Ryan Cole. Both warned about the dangers of the Covid-19 shots. Jeffrey Tucker of the Brownstone Institute encouraged personal and spiritual preparation for hard times ahead. Attorney Bobbie Anne Cox explained the need to oppose the Prep Act which, since the 1980s, has given immunity to pharmaceutical companies.

Keynote speaker Dr. Naomi Wolf shared her journey out of liberal feminism after she questioned the vaccine—especially its effect on women. Her liberal friends abandoned her and she discovered acceptance by Conservatives and Christians, a part of society she had previously disdained. In her quest to see what was happening to women from the vaccine, she obtained documents that the pharmaceutical giant Pfizer wanted to be kept classified. A huge volunteer team began pouring through thousands of pages. They discovered how much Pfizer knew and hid about the many serious adverse events and deaths caused by the vaccine. Especially horrifying was its effect on children and women’s reproductive health. As a descendant of Holocaust victims and survivors, Dr. Wolf said this is worldwide Nazism and it’s time for Nuremberg 2.0. The examples she gave are on Rumble.com, where you can view the entire Summit.(<sup>2</sup>) She ended with God’s call to “humble ourselves and pray and turn from our wicked ways...” so He can “heal our land” (2 Chronicles 7:14)

## FANNING THE FLAMES By Laurie Ortiz

*“The wind blows wherever it pleases. You hear its sound, but you cannot tell where it comes from or where it is going...”* Jesus tells Nicodemus (John 3:9), but in today’s world—we CAN know!

In October’s DYK we introduced DEW (Directed Energy Weapons), posing the question of wildfires being intentionally set to further the globalists’ climate change narrative. In September’s issue, we explored the topic of the Maui fire having numerous elements that just didn’t add up. One of these elements was the wind.

Maui is known for near-perfect weather, year-round, which is only disrupted when major storm systems arrive...but this is rare!(<sup>1</sup>) By all accounts August 8, 2023, was a beautiful day, until hurricane-force winds kicked up, stoking a small brush fire into a raging inferno. Interestingly, there was no storm! So what could have fueled this wind? In researching the most devastating fires of the decade, it’s noted that “unusually” high winds were cited.(<sup>2</sup>) Could it be that the winds were artificially generated?

The technology to create wind has been in the works for several decades. It’s called “ionic (electric) wind,” and is now a reality. “Known as electro-aerodynamic thrust, ionic wind is a wind or thrust that can occur when an electric current is passed between a thin and a thick electrode. If enough voltage is applied, the electrodes can produce sufficient energy to propel a small plane.”(<sup>3</sup>) Ionic wind can be generated via microwave and applied via satellite. It’s currently being used in the North and Baltic Seas to generate wind for wind farms,(<sup>4</sup>) and the technology is a component in China’s space-based infrastructure (i.e. satellite).(5)

Interestingly, Lahaina, Maui, Larissa & Athens, Greece, Tenerife, Canary Islands, and Yellowknife, Canada—all experienced devastating fires in August 2023,(<sup>6</sup>) and are being transformed into “Smart” cities (which were previously planned for).(7)(8)(9)(10) Therefore, it’s conceivable that globalist elites, wanting to rule the world, found a method to secretly clear the way for their vision of a “Green” New World Order.

## ALBANY UPDATE By Barbara Sieber

December 22, Democratic senators voted themselves a hefty pay raise effective New Years Day. While you were doing last minute Christmas prepping, they were slapping each other’s backs. They gave themselves a 30%, \$32,000 pay raise. Merry Christmas indeed! As of 2019, they were making a \$110,000 salary. They rammed it through a special legislative session, despite opposition from Democrats and Republicans in both the Assembly and the Senate, who were far more sensitive to the economic struggles of their constituents harmed from their enforced governmental shutdown for Covid. This pay raise now makes New York legislators the highest paid in the nation.(<sup>1</sup>)

We also saw the Clean Slate Law in 2023. This bill seals criminal records three years after sentencing for a misdemeanor, and eight years after a person is released from prison for a felony.(<sup>2</sup>) This means that you cannot have access to a person’s criminal record. That’s good for the ex (hopefully) criminal, yet possibly bad for unsuspecting employers and employees, landlords and neighbors. This law will prove to be a setback for the nationwide push for police reform and accountability, because past criminal records provide actual proof of over-policing, racial injustice, and past abuses of power on the part of law enforcement.(3)

Bad laws are difficult and expensive to reverse and the players in Albany know this. Assemblyman David DiPietro (R-East Aurora) told the following story. In response to him saying to a Democratic colleague, “Hey, you guys can’t do this! It’s totally unconstitutional!”, he was told “One and five, Dave. One *and* five.” Meaning, “It will take you (Republicans) ONE million dollars (\$1,000,000) and FIVE years to sue us and get it struck down as unconstitutional.” There is a supermajority of democrats in both legislative houses and in the Governor’s office(4) with complete access to our tax dollars to pursue their interests.

Despite New York, rejoice in the great miracle we just witnessed with the appointment of Rep. Mike Johnson to Speaker of the House. On nobody’s radar, God raised up a mighty man of God to serve the people.

## TO BE OR NOT TO BE By Laurie Ortiz

Much has been said this year about CBDC (Central Bank Digital Currency), which is being explored by 130 countries. Eleven countries have already launched their CBDC, while a few are in the pilot stage.<sup>(1)</sup> Where do WE stand in this quest for global money? First...some history:

Before 1890, transactions were made using banknotes printed by individual banks. This system soon became unstable and unreliable—so the U.S. Treasury created our first legal tender. The Federal Reserve was created in 1913 as the U.S. central bank, printing the first U.S. dollar in 1914. Before WW1, most developed countries based their currency on gold. Eventually, they returned to paper currency, which was then devalued. Britain maintained its gold backing until 1931, returning to paper currency. That led to the crash of many international accounts. In 1944, because the U.S. economy had strengthened, delegates from 44 allied countries crafted the “Bretton Woods Agreement,” establishing the U.S. dollar as the world’s reserve currency.<sup>(2)</sup> Forward to 1973, 239 banks from 15 countries met in Brussels, creating a secure system for cross-border transactions called the “Society for Worldwide Interbank Financial Telecommunications” (SWIFT).<sup>(3)</sup> But not everyone approved of the U.S. dollar being the world’s reserve currency.

China, endeavoring to replace the U.S. as the world’s superpower, and its Yuan as the world’s reserve currency, is establishing its influence world-wide.<sup>(4)</sup> Aligning with Brazil, Russia, India, and South Africa by forming “BRICS,” China is currently recruiting the MENA countries (Middle East/North Africa).<sup>(5)</sup> As CBDCs have been slow to materialize,<sup>(6)</sup> a new platform called “BRICS PAY” has been created to facilitate their financial transactions. Focusing on de-dollarization, members will use their local currencies while avoiding U.S. dollars, the Euro, and SWIFT<sup>(7)</sup> The BRICS alliance is also stockpiling gold to back it’s CBDC when launched, ending reliance on the U.S.<sup>(8)</sup>

Back in the USA, there’s not much Congressional support for issuing a CBDC. Majority Whip Tom Emmer’s “CBDC Anti-Surveillance State Act” passed the Financial Services Committee and is in the House for debate.<sup>(9)</sup> Concerns over government surveillance and personal privacy are shared by members of both parties. Rep. S. Lynch (D-Mass.) reintroduced his “ECASH ACT,” calling for a pilot program to test a version that wouldn’t allow such threats.<sup>(10)</sup> Meanwhile, Rep. A. Mooney (R-W.V.) reintroduced the “Digital Dollar Pilot Prevention ACT,” which opposes any testing of a CBCD.<sup>(11)</sup> Thankfully, the Federal Reserve will only issue a CBDC with Congressional approval.<sup>(12)</sup>

So where do we stand?....apparently in limbo!

## THE TRUTH (cont' from pg. 1)

### MISCONCEPTION #2: ISRAEL IS AN APARTHEID STATE

That would mean no freedom or citizenship for the minorities living in Israel. In Israel, Muslims have served in both the Knesset and Supreme Court, and one was elected as a beauty queen. Loudspeakers every day call the Muslims to freely pray publicly.<sup>(8)</sup>

### MISCONCEPTION #3: BOTH SIDES OF THE PRESENT CONFLICT ARE MORALLY EQUIVALENT

Not so! The Israel Defense Force does not attack civilians. If anyone in the IDF were to commit such atrocities there would be outrage and severe consequences. They warn civilians by dropping airborne leaflets and making phone calls to alert Palestinian civilians before attacking. Hamas uses civilians as human shields. In the present conflict, Israel is telling Palestinians in Gaza to go south before they attack Hamas and their bases. It is Hamas who is stopping them from leaving.<sup>(9)(10)</sup>

Next month we will explore more misconceptions:

#4. IF ISRAEL GIVES UP LAND THERE WILL BE PEACE

#5. THE FIGHT IS FOR PALESTINIAN RIGHTS

#6. ABRAHAM'S SON ISHMAEL (father of the Arabs) WAS THE TRUE SON OF PROMISE, NOT ISAAC

#7. IT'S TIME TO PAUSE AND NEGOTIATE

#8. ISRAEL DISPLACED THE NATION OF PALESTINE

## OPINION FROM A FORMER JUDGE

An article submitted to The Epoch Times

I am a student of law whose age is 85. My first year of college was 68 years ago. One class I took was political science. A half-page of my textbook essentially outlined a few steps to overturn a democracy:

1. Divide the nation philosophically
2. Foment racial strife
3. Cause distrust of police authority
4. Swarm the nation's borders indiscriminately and unconstitutionally
5. Engender the military strength to weaken it
6. Overburden citizens with more taxation
7. Encourage civil rioting and discourage accountability for all crime
8. Control all balloting
9. Control all media

What was printed in 1954 as a possible diabolic nightmare has become an emerging reality. I hope that Americans will unite enough to pen a good finish—Go dwelling.
