◆ Revival broke out in Times Square, November 6, led by Pastor Mike Signorelli. “hundreds of people... reported receiving the gift of tongues. New York City streets were filled with people singing in the spirit,... addicts surrendered drugs, suicides were cancelled.” Then people went out in the streets to win the lost to Christ.⁽¹⁾

◆ Signorelli also produced a film, “The Domino Revival,” capturing the essence of spiritual hunger and revival in America.⁽¹⁾

BOXES By Laurie Ortiz

In a recent interview, Evangelist Mario Murillo tells the story of one woman whose healing took place several years ago at one of his tent meetings. As he looked at her, God told him “This lady loves Christmas,” and gave him a vision of an attic filled with dusty boxes. Sadness came over him. The Lord revealed to Mario that these were filled with Christmas ornaments that she had made herself. Then Holy Spirit said, “I’m healing her hands. Tell her to unpack all of her decorations and flood her house with the Joy of the Lord.” Upon delivering the message, Mario asked her to raise her hands. He could see they were gnarled and crippled with arthritis, making it impossible for her to decorate. Her joy had been stolen. As her hands were healed, so was her broken heart!⁽¹⁾

On November 10, 2023, a professor at Houston Christian University, Michael Licona, received a report from “underground Christian ministries.” In Palestine, more than 200 fathers—whom they had gotten to safety and ministered to—had a visit from Jesus in their dreams, all on the same night! These fathers who had lost most, if not all their children in the war, were trapped by Hamas in a “box” called Gaza. They’ve been set free and are hungry to learn how to follow Jesus.⁽²⁾

What part of *you* has been taken and thrown into a box? Is it hopes, plans, dreams, or maybe your talents and abilities, or freedoms? The enemy comes to steal, kill, and destroy, but Jesus comes to redeem and restore. Our God, Who sits on the Throne, is He who takes us out of the box, dusts us off, and sets us free to be and do all that He has planned for each of us. He is “El Roi” (the God Who sees), Who never slumbers or sleeps (Psalm 121). This Christmas, allow Him to unpack your box, and decorate your life with the Joy of the Lord!

Merry Christmas!

THE TRUTH ABOUT ISRAEL, PART 2

By Candy Giles & Barbara Sieber

As stated in November's DYK, Jewish descendants of Abraham have been in Israel for over 3000 years. They established their capital in Jerusalem under King David. When the Romans expelled the Israelites in 70 A.D., they named the land Palestine after the Philistines, enemies of Israel. There was always a small number of Jews in the sparsely populated land. In the 1695 book, *Palestina ex Monumentis Veteribus Illustrata*, geographer Adriani Relandi says that most of the population were Jews, then Christians, and very few Arabs, mostly Bedouins. The November DYK explains that it was the British who brought in more Muslim Arabs. Many Jews began returning to Israel in the late 1800s and even more after World War II and the Holocaust. Since 1948, when Israel was restored as a nation, it has constantly been attacked by neighboring Muslim nations.

Presently, there is conflict in Gaza. The Israeli Defense Force (IDF) is attempting to eradicate the terrorist group Hamas after the barbaric attack on Jewish civilians on October 7. Uninformed Americans oppose Israel in favor of Hamas. They don't support Israel's right to survive as a country. Rolandi writes that in 1695, only 550 people lived in Gaza; half were Jews and half were Christians. No Arabs lived there.

In our last issue, we covered three misconceptions: the Jews colonized Palestine, it's an apartheid country, and there is moral equivalence. Now on to...

MISCONCEPTIONS #4: IF ISRAEL GIVES UP LAND THERE WILL BE PEACE

In 1967, Israel and Arab countries went to war (caused by a flare-up of tensions dating back to 1956, when Egypt shut down a prime passageway for Israeli shipping).⁽¹⁾ Israel won the war in six days and gained much territory, including East Jerusalem and the Gaza Strip. Within a few weeks, Israel offered to withdraw in return for peace, but the Arab League said no.⁽²⁾

Israelis established 21 settlements and greenhouses in Gaza resulting in great prosperity. In 2005, the Israeli government forced their people to leave and gave control to the Palestinian Authority in hopes of peace.⁽³⁾ The Palestinians inherited prosperous businesses, but policies and looting led to their destruction.

Unfortunately, the terrorist group Hamas took control, dashing hopes of peace and resulting in the recent massacre.

There have been other offers by Israel of land for peace repeatedly turned down by Palestinian leaders.⁽²⁾

Congresswoman Rashida Tlaib quoted the oft-repeated slogan, "From the River to the Sea, Palestine will be free," which is a "common call to arms for pro-Palestinian activists...erasing the state of Israel and its people. It is also a rallying cry for terrorist groups and their sympathizers, from the Popular Front for the Liberation of Palestine (PFLP) to Hamas, which called for Israel's destruction in its original governing charter in 1988..."⁽⁴⁾

MISCONCEPTION #5: THE FIGHT IS FOR PALESTINIAN RIGHTS

It's not really about the Palestinian people. The Jews have been hated and targeted for extinction throughout their history, from Pharaoh in Egypt to the time of Queen Esther in Persia, and then Hitler. They were completely expelled from Spain in 1492.

Anti-semitism has skyrocketed in the U.S. where Jews are 2.4% of the population yet the victims of 60% of all religious-based hate crimes.⁽⁵⁾

The hatred towards this small percentage of earth's population and hysteria over a tiny sliver of land the size of New Jersey is irrational apart from a spiritual understanding of the devil's hatred of God's Chosen People and their Promised Land.

MISCONCEPTION #6: ISRAEL IS COMMITTING HUMAN RIGHTS ABUSES

Intercessors for America has published an article by CNN refuting this falsehood: ifapray.org/blog/evidence-israel-is-not-committing-war-crimes/

The IDF's attempts to help Palestinian citizens get out of the battle zone or out of the hospital where Hamas is headquartered are well documented. Hamas takes food, fuel, medicine, and other humanitarian supplies for themselves. A video shows IDF soldiers delivering fuel that the hospital needs. It also shows a nurse crying because Hamas took the morphine she needed for a little boy with a broken leg.⁽⁶⁾⁽⁷⁾

MISCONCEPTION #7: ISRAEL IS RESPONSIBLE FOR PALESTINIAN POVERTY

The leaders of Hamas live a lavish lifestyle safely in Qatar and use billions of dollars in humanitarian aid for the military and luxury. Gaza was once prosperous.

It could be again. The gorgeous Mediterranean coast could be a tourist destination. Allowing their people to live in such poverty is criminal.⁽⁶⁾

THE STATE OF THE STATE By Barbara Sieber

The Honorable Kathy Hochul has not been legislating so honorably. She just announced New York State has been “collecting data” from social media platforms to combat “hate speech” following a rise in antisemitic attacks. “We have launched an effort that should be able to counter some of the negativity and reach out to people when we see hate speech spoken about on online platforms...”⁽¹⁾ What does “hate speech” mean, besides, in this specific case, anti-semitism? We should assume it will mean anything that doesn’t line up with what the government of NY thinks... negative thoughts expressed against LBGTQ plus plus plus, DEI, drag queens, voting machines, vaccines, CBDs, Covid...It’s a frighteningly long list of things we are not “allowed” to say. The legal scope of this action is ultimately sure to increase in size as it is deliberately vague.

NY has been labeled the “least free state” in America in regards to economic and personal freedoms⁽²⁾ in a Cato Institute report (a libertarian think tank.)⁽³⁾ A healthy business environment where there are low income and business taxes allows business owners to invest more in their business and benefiting employees. “Combined state and local taxes are crushing. Debt is highest in the country at 26.1% of income. The result is a net outmigration that outpaces by far all other states.”⁽²⁾

The last bit of very bad news for NYers is that Attorney Bobbie Anne Cox suffered a setback against Hochul’s Quarantine Camps. The NYS Supreme Court Appellate Division’s Fourth Judicial Department dismissed the lawsuit, stating the plaintiffs did not have right standing to sue because they were not injured by the regulation. The court insinuated that the only party who has the right to sue is someone who has been forcibly locked in their home against their will, or ripped from their home, thrown into a detention facility, camp, etc. Only THAT person could be the injured. However, Ms. Cox argued the lawsuit on the basis both the Governor and DOH lacked the constitutional authority to make the regulation at all. That was not even addressed by this court.⁽⁴⁾ She plans on appealing the decision.⁽⁵⁾

IT’S TIME FOR BOLD CHRISTIAN ACTIVISM - KINETIC FAITH By Lee Bradley

Are you prepared or willing to confront a "Drag Queen Story Hour," engage with your school board, and legislators, or share your Faith in Jesus with others effectively? In an interview between Lance Wallnau and Rick Crump, they discussed the discrepancy between political promises and actions. Rick emphasizes the need to hold those in authority accountable.

Everyone is called to ministry, not necessarily from the pulpit, but we are to confront evil in our society. We are to hold one another accountable—with the love of Christ.

Rick, a business consultant who founded Kinetic Faith, advocates for believers to work together. Even Jesus, when he sent out the disciples, he released them "two by two."⁽¹⁾ Rick urges like-minded individuals to unite and actively participate in causes, meetings, and spaces—such as school boards, together—to make a meaningful impact. Reject the Lone Ranger mentality and find your tribe.

Rick also challenges the familiar approach of Christians expressing grievances without effecting change, i.e., screaming at the school board while being ignored. "It takes an effective moral argument to be credible and win the crowd!"⁽²⁾

Referencing Matthew 16:18, Rick underscores that the gates of hell will not prevail against us (the Church) and highlights the responsibility of good men to act. Evil will prevail if good men do nothing, and if we do nothing, can we call ourselves good men? Looking at today’s news, we have a lot of work ahead of us. Are we transforming our culture, restoring law and order in our streets, and resisting societal pressures?

Kinetic Faith’s mission is to help the Church confront societal issues with tools and training, safeguard liberties, restore Judeo-Christian values, and protect life. They advocate for a return to fundamental education (reading, writing, and arithmetic) rather than promoting ideologies like transgender theology or revising historical narratives.

Let us reclaim our essential role as a force for good, serving as salt and light in the world. The message is clear. For those who neglect their duties, it is our responsibility to counteract darkness. Let’s link arms with like-minded people, act like His Church, and get busy. It is crucial for fostering a healthy society, as the failure of good men to act allows evil to prevail.
