PROPHECIES FULFILLED By Candy Giles

Amos 3:7 "Surely the Lord God does nothing, unless He reveals His secrets to His servants the prophets."

In previous issues we have encouraged readers to listen to reputable prophets like those on Elijah Streams. I Corinthians 14:3 says, "But he who prophesies speaks edification, exhortation, and comfort to men." One well known prophetess says often that God tells us "the news before the news" to encourage us that He is in control.

One recent event that was prophesied by Tim Sheets⁽¹⁾ was how the purchase of Twitter by Elon Musk exposed government corruption.

Gatestone institute states, "Elon Musk's release of internal Twitter correspondence around the censoring of the New York Post's blockbuster "Hunter Biden laptop" story...confirms what most knew already—that Twitter...censored information they thought would damage their cause."⁽²⁾

Last spring Tim Sheets had a dream of two men searching an old gray file cabinet, holding up a file saying, "this is what we've been looking for." Then the file cabinet became a large computer screen with a snake-like line of dominoes which then fell—taking down the head. He interpreted the dream that something very strategic is going to be uncovered and will start an avalanche of exposures.⁽⁴⁾

Interestingly, many news articles refer to the "Twitter files" and their release is starting an avalanche of incriminating evidence of corruption.

In early October, Tim Sheets had a vision and heard the Holy Spirit say "the strings will burn first." He heard a whistle and "the whistleblowers will now be heard" and "the handlers will be exposed and lose their connection."⁽⁵⁾

(continued on page 2)

PROPHECIES FULFILLED (cont' from pg. 1)

One of the files released by Elon Musk shows an email from the FBI and White House Staff giving a long list of censorship demands. The reply from Twitter was simply "handled."⁽⁶⁾

So the files are opening, strings of puppets are burning, and "handlers" are being exposed.

Tim Sheets also states that the prayers and declarations of the ecclesia have had an impact in causing these revelations about Twitter.⁽⁷⁾

So we will continue to pray and declare to see more evil brought down!

ANTI-VIOLENCE MONEY GOES TO PLANNED PARENTHOOD

By Candy Giles & Lois Verde

The city of Rochester committed \$5 million from COVID relief funds to advance the Rochester Peace Collective. 68 grassroots organizations applied for these funds yet Planned Parenthood, the largest abortion provider in the country (\$1.7 billion in income 2020-21 and \$2.1 billion in net assets), was selected to receive money for an outreach called "In Control."

On December 20, City Council members sat stone-faced while 27 spoke against the contradiction of anti-violence money going to Planned Parenthood. They heard about the violent act of abortion and provided evidence of Planned Parenthood's refusal to protect minors from sex offenders and sex traffickers. Shamefully, this did not sway the council to suspend their vote to look at the evidence. Instead, they contended that Planned was strictly a fiduciary agent for In Control and would not receive any funds. They ignored that half of In Control's staff, including a former Planned Parenthood employee, is dedicated to sex education, and every webpage has a "Make an appointment with Planned Parenthood" button.

They rushed to pass the proposal 7-2.

Why write about this after the defeat? As Lois Verde from BraveHEARTny said, "We lost a battle, not the war. Every time we speak out, we have an opportunity to educate our leaders and all that are listening. We must continue to pray, stand up, speak out and work together. If we do that, one day we will prevail."

COMPANIES TO CONSIDER

Compiled by Laurie Ortiz

Here are companies that we can boycott that are under Balenciaga's parent company, Kering, which not only sells high end items, but also peddles in child pornography/pedophilia: Adidas, Alexander McQueen, Bottega Veneta, Boucheron, DoDo, Gucci, eyewear by Lindberg, Maui Jim, Pomellato, Puma, Yves Saint Laurent ⁽¹⁾

WHICH WAY DID HE GO, GEORGE, WHICH WAY DID HE GO?

By Laurie Ortiz

This catchphrase from "Looney Toons" depicts George (a sly fox) outsmarting Willoughby (a dimwitted dog) by that the fox he was chasing went "that way →," when he was actually sending him to the edge of a cliff! Likewise, we have the Biden administration, "George," treating us citizens, "Willoughby," as too dumb to see the real intent of the border crisis!

An investigation by The Heritage Foundation's Oversight Project, with the Border Security & Immigration Center, revealed the migration of illegal aliens all over the country. Through geofencing, which uses GPS and RFID (Radio Frequency Identification), they tracked a group of 30,000 migrants in January of 2022 via mobile devices as they moved into various states.⁽¹⁾ So how are we being fooled?

The Biden administration is using *our* taxpayer dollars to fund religious charities and other Non-Government Organizations (NGOs). "These groups apply for, and receive, taxpayer money to provide processing and transportation services and infrastructure to facilitate the migration of illegal aliens into the country." The true cost of the border crisis is being hidden. The devices were traced to 431 separate U.S. congressional districts out of the 435. Of the 52 congressional districts with the highest density of devices, 71% were Republican congressional districts.⁽²⁾

Oversight Director Mike Howell states, "We now have undeniable proof that NGOs are partnering with the Biden administration in facilitating and perpetuating this historic border crisis. What's most shameful is that these NGOs are using not just taxpayer dollars to complete the final link in the drug cartels' human smuggling operation, but also funds donated by Americans across this country who have no idea their charitable giving is being used for this purpose. They are working hand-in-glove with the open-borders advocates in the Biden administration to resettle untold numbers of illegal aliens across this country every month, willingly advancing the left's goal of reshaping the American electorate and advancing their political objectives."⁽¹⁾

AN ALTERNATIVE TO GOVERNMENT CONTROLLED SCHOOLS: "AMERICAN SEEKERS ACADEMY"

By Linda Muhs

As a parent, are you frustrated with school curriculums such as Critical Race Theory, that teach anti-American values? Are you comfortable with teaching sex education to elementary students? Do you object to government-controlled policies that shut the doors of your schools at will? Are you OK with schools forcing children to wear masks all day, or pushing vaccinations on them? Do you want to have a voice in what your children are being taught? Are you ready to pull them out of this crazy system, but don't know how?

Well, there is an alternative education program that will soon be available for students K-12. It is the American Seekers Academy. They offer a decentralized, classical education program—without government restrictions. It is a drop-off homeschool program taught by experienced mentors. The core curriculum is out of Hillsdale College—rich in content, with an emphasis on the four core disciplines of math, science, literature, and history. Enrollment is open to all and they do not discriminate against one's personal medical choices or political and religious affiliations. Their goal is: "To raise up morally-responsible citizens who love America." Their core values are rooted in the Judeo-Christian principles of honesty, integrity, personal responsibility, and good citizenship. They value and encourage parental involvement and input. Their motto: "Good Parents form good people and good citizens."

The Academy is set up as a Private Membership Association (PMA) that is privately funded, which means they can operate independent of any government interference and control. Parents would pay a yearly membership fee of \$175./yr., per family. Tuition is based on either a half-day or full-day program, depending on which you choose. They are currently accepting applications, and are hoping to have more than one location in the Rochester area, depending on the number of enrollees.

"WHY IS CORPORATE JOURNALISM RUSHING TO DEFEND THE STATE INSTEAD OF THE PEOPLE?" ELON MUSK, DEC. 27, 2022

By Barbara Sieber

Elon Musk buying Twitter could be the best thing that's happened for America in a long time. Twitter is the public forum that, unknown to many, so controlled its content that it was censored. If you wrote a narrative on Twitter that was different from the government regarding Covid, the vaccine, Biden, President Trump, "election fraud," Hunter Biden—"misinformation" was claimed, the post removed, account suspended or you were shadow-banned (algorithms used to make posts less visible no matter how many followed you or truthful your post.) Since the take over, Musk has exposed countless emails that the FBI passed to Twitter execs. In other words, the government is calling the shots as to what citizens are allowed to express and read.

Musk has relied on chosen independent journalists (Matt Taibbi, Bari Weiss, Michael Shellenberger) to analyze and expose the widespread government corruption contained on Twitter. "Twitter's contact with the FBI was constant and pervasive, as if it were a subsidiary," investigative liberal reporter Taibbi tweeted.⁽¹⁾ He also called it a "dog-master relationship." "Between January 2020 and November 2022, there were over 150 emails between the FBI and former Twitter Trust and Safety chief Yoel Roth."⁽¹⁾

There has been nine tranches of the Twitter Files rolled out. This is what has been exposed so far:

- Aggressive efforts by the CIA and the FBI to force Twitter into censoring various political opinions and speech through constant contact with Twitter execs, one of whom is ex-CIA himself. The FBI and CIA acted as a doorman for other agencies—the DOD, the State Department, the DHS, the Pentagon, to control the narrative. They influenced both the 2020 and 2022 elections.⁽²⁾
- An organized effort by federal law enforcement agents to target social media and news agencies to discredit leaked information about Hunter Biden BEFORE and after it was published.⁽³⁾
- The government declared the illegal actions of Hunter Biden exposed by his laptop off limits to Facebook, Twitter, and major liberal news sources, affecting the election's outcome. "...full awareness... would have led to 9.4% of Biden voters to abandon (Biden), flipping all six of the swing states he won to Trump, giving the president 311 electoral votes."⁽⁴⁾
- Twitter allowed the government to "use the platform for psychological influence operations" abroad, despite a strict ban on foreign influence over the past half-decade.⁽⁵⁾

BUT THAT WOULD NEVER HAPPEN HERE...!!!

By Laurie Ortiz

For years we've heard of Christians being persecuted in Third World countries. We've heard of entire villages of Christians being murdered in horrific ways and those villages being burned down in places like Sudan, Nigeria, Southeast Asia, and India. We've seen churches destroyed in China and the congregants imprisoned, while in North Korea if someone is found out to be a Christian, their entire family is jailed, with the possibility of being tortured or even killed.

Fortunately in Western culture, Christianity has not posed such a threat to the unbelieving radicals, and has enjoyed the freedom to worship. But in recent years there has begun a disturbing trend toward the non acceptance of our Christian faith. It became quite noticeable during the Covid lockdowns—when churches were deemed “non-essential” and liquor stores, casinos, abortion clinics, etc. stayed open. Some Pastors were arrested for disobeying the law because they refused to stay closed.

Was this the “slippery slope” that could lead us to the place where we never thought we'd see in our First World country? As of mid 2021, there have been 45 Christian churches in Canada set ablaze, and the trend is moving across our border.⁽¹⁾ Since May 2022, there have been criminal attacks on 63 pro-life organizations in 26 states, according to the Religious Freedom Institute. “Since May 2020, there have been attacks against at least 174 Catholic targets in 38 states...including arson, desecration & defacement, property destruction, and theft...”⁽²⁾

Family Research President Tony Perkins says, “As the mainstream culture moves further and further away from a biblical worldview, I've witnessed the hostility to moral truth creep closer to our shores. The West, once the safe haven of free speech and religion, is turning cold to our religious foundations that have helped us thrive. Christians must not live in fear and should continue to stand upon the truth of God in the face of hatred and violence.”⁽³⁾

“The Lord will rescue his servants; no one who takes refuge in him will be condemned.”

Psalm 34:22

“WHY IS...” (cont' from pg. 3)

- Twitter moderated Covid-19 content, disallowing anything that ran counter to the CDC about the vax, even blocking feedback from luminaries like Dr. Martin Kulldorff, an eminent Harvard scientist who argued against the vaccines.⁽⁶⁾

A Christmas Eve Twitter drop shows the FBI, DOD, State Department, and Pentagon dictating censorship and surveillance over Facebook, Twitter, Microsoft, Verizon, Reddit, Pinterest and others. “This is so vast, so deep, it's...the whole of the state.”⁽⁷⁾

Elon Musk is now releasing Twitter files pertaining to Dr Fauci's handling of Covid. This may get very interesting...
