## FAITH TALES—THE RETELLING OF CHILDREN’S STORIES By Lee Bradley

I was introduced to Beverly Capps Burgess's children's books roughly 35 years ago while visiting Good News Church in Ft. Lauderdale, Fla. Beverly is the daughter of Charles and Peggy Capps of Capps Ministries. While there, I checked out their book store where I saw these children's books called *Faith Tale* series. At that time I wanted to learn about illustrating children's books, so the artwork caught my eye. I liked the creative way Beverly took the classic children's stories and applied Biblical principles in a way a child would understand.

Some of the titles are: “The Little Red Hen,” “The Three Little Pigs,” “Building Your House Upon The Rock,” “Chicken Little Conquers Fear,” “Little Red Riding Hood,” “Jack and the Beanstalk,” “Faith as a Seed,” and “The Three Bears in the Ministry.” These are available on Capps’ Ministry website,<sup>(1)</sup> along with other books for different age groups.

Another book, *Don't Hug a Grudge* by Donna Perugini, has become a favorite. It is available in English and Spanish. It illustrates how a grudge turns to bitterness, which then turns to resentment, and how to forgive. Joyce Meyer thought enough of Donna's book to use its illustrations and content in her series, *Bitterness, Resentment, and Unforgiveness*, available on Amazon.

There are many Christian books besides the ones mentioned. Readers are Leaders. Consider these books, or find others to read to the children in your life. The attack on the family started decades ago, so building strong foundations is critical for our families. What better way to start than to instill in them a love of reading by using these *Faith Tales* and other Biblical stories. It's even better when God's Word is spoken over them—getting truth into their spirit. The love of Jesus is real. Let that love ooze over your family and friends.

## SAY WHAT???

By Laurie Ortiz

In the recent past, it was reported that Pope Francis had issued a decision regarding gay marriage that took people quite by surprise. Catholics were shocked, knowing that this had always been unacceptable. Upon delving into it, this report is NOT true! The Pope's words were taken out of context and “For the second time in a month, the media has taken a document from the Vatican and mangled it beyond all recognition...Anyone who claims that the Vatican's document authorizes blessings of same-sex unions has not read it or is intentionally misinterpreting it.”<sup>(1)</sup>

Why is it important that we clarify this? In the eyes of the Catholic Church, the Pope is the representation of Jesus on this earth, but he is also respected and revered by many who are not Catholic. It is expected that he stands by every teaching of Jesus, rightly judging between good and evil according to scripture. Misinterpreting his words can cause people to adopt erroneous mindsets. For example, Gov. Chris Christie recently stated on his campaign trail that the Pope's ruling caused him to abandon the belief he was raised with and is now embracing gay marriage.<sup>(2)</sup>

We must stay vigilant in our quest for truth and righteousness “lest Satan should take advantage of us; for we are not ignorant of his devices.” (2 Corinthians 2:11) The Pope has maintained the teaching of the Catholic Church—that marriage is only acceptable between a man and woman.<sup>(3)</sup> We should be careful not to readily accept what we see/hear reported in the dishonest media as we know that people of all faiths are under attack. The progressive, left, globalists will say and do, just about anything to discredit those who do not subscribe to their narrative.

# “WHAT DO WE NEED HUMANS FOR?”<sup>(1)</sup>

Yuval Noah Harare, advisor to Klaus Schwab of the World Economic Forum By Candy Giles

This quote reveals the true motives of a group of global elites who believe they alone know how to rule the world and that there are too many of us “useless eaters” (see Jan. ‘24 DYK’s “Agenda 2030”). An inscription on the Georgia Guidestones (before they were mysteriously destroyed) said the world’s population should be kept at 500,000,000 (see Oct. ‘22 DYK ). The Great Reset or Agenda 2030 is a plan towards absolute power and control, with DEPOPULATION being one of their methods. To be successful, they especially need to target the United States.

This helps explain many things that don’t make sense in our world today:

- Abortion made legal up to the time of birth<sup>(2)</sup>
- Growing acceptance of the transgender movement which includes mutilation and sterilization of children being diagnosed “gender confused”
- Out-of-control government spending, causing inflation and poverty<sup>(3)</sup>
- Cows demonized in the name of climate change<sup>(4)</sup>, with calls to kill them; farmland bought by Bill Gates (who advocates eating bugs) and China;<sup>(5)</sup> mysterious fires at food plants—all resulting in food shortages<sup>(6)</sup>
- Lab manufactured viruses<sup>(7)</sup> followed by a push for an untested inoculation that didn’t work<sup>(8)</sup>, which appears to leave thousands injured and/or have deadly results.<sup>(9)</sup> (See Ken Wolf’s article on page 4)
- Fentanyl and dangerous people crossing our southern border<sup>(10)</sup>
- Schools and colleges indoctrinating the young with anti-family ideologies<sup>(11)</sup>
- Cancer-causing plastic particles in our food and water<sup>(12)</sup>
- Suspicious fires in Maui and many other places<sup>(13)</sup>
- Weakening our military while supporting going to war<sup>(14)</sup>
- Canada’s widespread use of MAID, (Medical Assistance in Dying) and U.S. and Irish doctors heading in that direction<sup>(15)(16)</sup>

These are just a few of many examples of the madness in our world today. But it isn’t just a recent phenomenon.

In 1969, Planned Parenthood produced “a step-by-step roadmap for depopulating the United States...called the Jaffe memo.” (see pg. 3) Matt Walsh of The Daily Wire says, “It may be the single most important document that most people have never heard of...If you want evidence that pretty much every problem facing Americans today wasn’t just predictable, but planned, read this memo.” He adds, “...if you want to know where the depopulation agenda is heading, you must understand every word of it.”<sup>(17)</sup>

The memo calls to restructure the family, modify tax plans, and truly frightening—to have “fertility control agents in the water.” It’s reported that up to 90% of birth control is unmetabolized and flushed down the toilet.<sup>(18)</sup> Not all has been accomplished—yet—such as compulsory abortions or sterilization.

As Christians, we are called to pray AND WORK against the plans of the enemy. Whatever happens, we should not fear. God wins! (Psalm 37)

Looney Tunes’ 1942 Short, “The Ducktators”

## DE FUHRER By Laurie Ortiz

“Never Forget!” is the phrase commonly used to keep alive the memory of a horrible, man-made event that rocked our world, causing us to face the fact that “...the wicked will continue to be wicked.” (Daniel 12:10). The rise in anti-Semitism in our world today begs the question: HOW can the horrors of the Holocaust be forgotten? More shockingly, how can Americans, while loving our freedoms, subscribe to this ugly mindset?

In the August ‘23 DYK, (“While We Were Sleeping”), I gave a timeline showing the rise of the Marxist-Socialist ideology that’s overtaken much of our society. What eluded me was the influence of Hitler taking place behind the scenes! Focusing on the threat of Communism taking over our society, patriots fought throughout the 1930s to stem the tide, maintaining our values and the American Way. Meanwhile in Germany, the Nazi Party, beginning in the 1920s as the National Socialist German Workers’ Party, was gaining popularity. They were radically right-wing, antisemitic, anti-communist, and anti-democratic. Much political upheaval (early 1930s) led to the formation of a new government. A deal was struck to appoint Hitler as Chancellor, opening the door for his subsequent rise to dictatorship.<sup>(1)</sup>

In 1934, Ernst Hanfstaengl, a high-ranking Nazi official and foreign press chief, was warmly welcomed at Harvard University, arriving to his class reunion. Harvard’s president, an anti-Semite and Nazi sympathizer, who had already restricted Jewish admissions, was unmoved by protestors and had some jailed. Other prominent universities including Yale, Columbia, and the Seven Sisters invited Nazi leaders to speak, enrolled German students trained as Nazi propagandists, and encouraged studies abroad under the Nazis. The University of Virginia actively recruited pro-Nazi academics and diplomats to give them a platform to present their ideology. Anti-Semitic statements were rarely challenged; Nazi policies were praised. Decades later nothing much had changed. In 1994 Howard University hosted Khalid Abdul Muhammad, and Columbia University in 2007 had Iran’s president Mahmoud Ahmadinejad, both virulent anti-Semites, while pro-Israeli speakers were suppressed and denounced.<sup>(2)</sup> Indoctrination, like a tree planted, grows roots hidden and deep.

## FOR THE SKEPTICS

By Barbara Sieber

Is democracy under attack? By who? The Right? The Left?

Let's look at definitions to start.

**Democracy:** a system of government in which the people of a country can vote to elect their representatives.

**Freedom of Speech:** The right to communicate one's opinions in public.

**Propaganda:** ideas or statements that may be false or present only one side of an argument that is used to gain support for a political leader, party, etc.

**Media:** The main way people receive information and entertainment <sup>(1)</sup>

Agree or not with the former President and current front runner for the Republican nomination, the man, as a U.S. citizen, is guaranteed his First Amendment right of free speech. The media apparently disagrees. Vehemently.

"Democrats' argument that Trump poses a unique threat to democracy has little basis in reality. Trump's election denial and machinations were not qualitatively different from the actions of many Democrats (in past races). As for the January 6 riot, it was largely the result of security failures, including (Democrat) leaders alleged refusal to call in the

National Guard"<sup>(2)</sup> (after Trump recommended it.)

Why does the Right feel like the deck is stacked against their strongest presidential candidate?

A quick sampling follows:

- Trump's fateful speech delivered from the Capitol steps Jan 6, posted on YouTube, was quickly taken down.<sup>(3)</sup>
- Major stations refused to cover Trump's caucus victory speech.<sup>(4)</sup>
- There is already encouragement of revolt in **advance** of a possible Trump presidency. A recent NBC News article outlines a potential strategy of limiting the military powers of Trump upon his possible re-election. The fear is he would weaponize the military as a political weapon against those who have weaponized the media/intelligence community against him. They fear a "tit for tat".<sup>(5)</sup> There is worldwide support for this because Donald Trump threatens the very existence of The Great Reset (thereby dismantling the WHO, The WEF, and all the offshoot NGOs).<sup>(6)</sup>

Here is a challenge for you. Use the words *democracy*, *freedom of speech*, *propaganda*, *media*, and *Trump* in one sentence that conveys a sense of impartiality. Bonus points for "death of" before "democracy."

## PANDEMICS: NATURAL VS PLANNED

By Ken Wolf

Past pandemics (bubonic plague, smallpox, cholera) were a result of ignorance and negligence. We have eliminated excessive outbreaks by dealing with sanitation, overcrowding, and rodent and insect infestations. We don't pollute our drinking water with human or animal waste. We stopped the spread of disease by isolating infected hosts and have prevented outbreaks of Zika, West Nile Virus, Malaria, etc. from becoming pandemics.

But is it possible to create a planned fake pandemic? What steps might be taken?<sup>(1)</sup>

The first steps in preparing the population for an outbreak could be creating an atmosphere of fear. Talk up diseases like Marburg or Ebola and a soon-to-come disease "Y". Also include discussions of deadly diseases created in laboratories to develop vaccines in the likely event of future outbreaks. (Enhancing pathogens to make them more deadly is called Gain of Function.)

Next, infect people, preferably world travelers, in various locations globally with some general pathogen (not deadly). These people would spread the disease in airports. Bring attention to the outbreak via the media. Also release disease "Y" in large gatherings: malls, college campuses, conferences, and protests. Make sure it spreads. Use computer models to exaggerate the spread of the so-called deadly pathogen.

Keep the fear active! People will become afraid and will flock to hospitals with the "deadly" symptoms which may only be symptoms of the flu.

The hospitals could be given financial incentives to report false positive diagnoses and even attribute deaths from cancer, heart attacks, strokes, etc. as being from disease "Y". Emergency measures could now be implemented.

There is your fake "pandemic."

(Did you know "declarations of a public health emergency, by law, require no evidence that an emergency exists? The opinion of one unelected bureaucrat is all that's needed.")<sup>(2)</sup>

There is the more sinister possibility: creating an actual deadly pandemic. This could be generated by contaminating food and water supplies and/or dropping pathogens and toxins into the atmosphere via chemtrails.

The takeaway: Not every leader on the planet is righteous. Evil men historically plot evil. But we need not fear. Double down on strengthening your faith in the goodness of God, drink clean water, eat healthy food, and support your immune system.
