

DID YOU KNOW?

News You Need To Know • Looking at the Seven Mountains of Culture • "And the government will be upon His shoulder." Isaiah 9:6 "

THAT GRAY AREA By Ken Wolf

Dichotomy: a division into two especially mutually exclusive or contradictory groups or entities. Public/private, formal/informal, heaven/hell, male/female are examples of dichotomy.

I follow a homesteader named Jill Winger. She had this to say, "I've been thinking a lot about false dichotomies lately. They seem to be all the rage these days. A false dichotomy is when a choice or belief is INCORRECTLY presented as EITHER/OR. It presumes there are only two options.

"In philosophy, 'you're either with us or against us' is considered a false dichotomy or a false dilemma," writes Brene Brown in her book *Braving the Wilderness*. "It's a move to force people to take sides. If other alternatives exist (and they almost always do), then that statement is factually wrong. It's turning an emotion-driven approach into weaponized belonging." A false dichotomy is designed to bring division.

Unfortunately, our media and political groups are hitting us with many false dichotomies.

You are either of one political party or another. The government should help either immigrants or the homeless. You love or hate Gays. One's behavior is based on their growing environment or their genetics. You believe in Science or Religion. And the list goes on. I get that it is nice and easy to belong to a group. Many good things come from unity. But I want to introduce that 'gray' area. It is that space that requires navigation and thought. Any group that requires uniform thought and denies gray areas should be suspect. God gave us minds for thinking and He wants us to do just that.

In short, the next time you are given an either/or proposition, don't jump to conclusions - gather some facts and weigh the evidence. Don't make the decision someone gave you. The decision you come up with should reflect your values, not someone else's.

DIGITAL WHAT? By Laurie Ortiz

In the September issue of DYK we alerted you to Executive Order 14067, which would pave the way for Central Bank Digital Currency (CBDC), watching for it to arrive between 2023-2024. With the recent crash of SVB (Silicon Valley Bank), Signature Bank, and several smaller banks, the topic is now beginning to look more like a reality. So let's take a look at what's happening here, focusing first on the USA's banking situation.

There's a phenomenon occurring that's hit the USA, and globally... ATMs are disappearing! From 2019 - 2022, there's been a national decline of 18,500 ATMs according to research firm Euromonitor International.⁽¹⁾ It's claimed that the pandemic forced people to rely on online shopping, therefore cash was not as useful. Conveniently, this would support the idea of moving to digital currency.

Add to this the downfall of SVB. Actually, this isn't new. In the past several years there have been a dozen bank failures⁽²⁾, but SVB served the rich and famous of Silicon Valley. So was this simply 'woke' management "...who only know how to talk equity and inclusion rather than liquidity and interest rates."⁽³⁾ or was something more sinister happening? The fallout from this is now a move to 'nationalize' the banking system since only the government can keep things straight!? South Dakota Governor Kristi Noem vetoed a bill that came to her desk that "...changed the definition of money and banned non-govt-issued cryptocurrency like Bitcoin."⁽⁴⁾ This amendment to the Uniform Commercial Code (UCC), which sets standards for interstate sales and commercial transactions, has already been passed in several states.⁽⁵⁾

Let's not forget the damage caused to our economy by the Covid lockdowns. Businesses and schools closed, jobs were lost, supply chains were disrupted causing food lines to abound, and stimulus checks caused inflation to soar. Universal Basic Income, anyone??

So a precedent has been established, the stage is set, and the surveillance state is on the horizon. In the next issue, we'll focus on the global plan.

PRAY FOR THE SEVEN MOUNTAINS OF CULTURE and how we Christians can influence: Religion, Education, Business, Arts/Media/Entertainment, Family, Government & Science/Technology

A SUMMARY

Part 2 of 'Do You Believe in Climate Change' By Ken Wolf

Here is a summary of an interesting video by Steve Koonin, former Undersecretary of Science for the Obama Administration.

- The following three assumptions are faulty:
 1. The planet is warming catastrophically because of certain human behaviors.
 2. 'Supercomputers' can predict future climate.
 3. Eliminating the burning of fossil fuels can save the planet.
- The US government and the UN Climate Reports say severe weather frequencies have not significantly changed in nearly 100 years. Even Greenland's ice sheet is not shrinking any faster than it was 80 years ago. Yet politicians, media, and a good portion of the climate science community declare weather is getting 'worse'.
- The public gets most of their 'facts' almost exclusively from the media. Journalists don't check the hard science. Fear sells.
- Koonin wrote one of the first textbooks on computer modeling. He says there's a tremendous number of complex variables which affect climate. More variables continue to be discovered making accurate computer-generated climate projections problematic.
- Computer model results vary widely due to the judgments/assumptions the modelers make. One example is cloud cover which can not be predicted.
- The world derives 80% of its energy from fossil fuel. Getting rid of it is impractical.
- We can not suddenly get rid of CO₂ as large amounts stay in the atmosphere for decades. It does not dissipate quickly.
- Currently, we cannot accurately predict future climate. Therefore making laws and policies based on inaccurate assumptions can't guarantee an improved climate. This has the potential for catastrophic effects on the world's economy and our lives.

To watch the five-minute video, go to www.prageru.com and search: "Is There Really a Climate Emergency?", posted October 25, 2021.

COINCIDENCE? CONSPIRACY? CATASTROPHE!

By Candy Giles

Chickens are dying,⁽¹⁾ some aren't laying eggs.⁽²⁾ An egg farm in Connecticut 'burned to the ground for no obvious reason.'⁽³⁾ Cows are dying from mysterious illness or unexplained mutilation.⁽⁴⁾⁽⁵⁾

Train derailments are happening more frequently.⁽⁶⁾ The one in Ohio was one of the worst human & environmental disasters—ever.⁽⁷⁾

Food processing plants are having more fires, explosions, and other disasters. From January 2021 - June 2022 there were 97 instances where U.S. food plants "have been destroyed, damaged, or impacted by 'accidental fires,' disease, or other general causes."⁽⁸⁾

The Department of Defense "allowed an unsecured server to spill sensitive American military emails online for two weeks."⁽⁹⁾

There have been increasing attacks on electrical substations since 2017, putting our power grid in danger. There were 97 attacks in 2020, 99 in 2021, and 108 in the first eight months of 2022.⁽¹⁰⁾

GOD-INSPIRED STRATEGY?

By Candy Giles & Barbara Sieber

On March 21, a group of us sat to observe and pray at the Fairport Board of Education meeting. A Fairport resident, defending child porn in the school library, called us 'Right-Wing extremists and Christian Nationalists,' and accused us as 'book banners.' (But for them, Tom Sawyer and Dr. Seuss have to go).

These books contain graphic sexual illustrations. "It's Perfectly Normal," teaches how to engage in gay sex. "Trans +," features QR codes that take children to obscene sites with additional hyperlinks. "This Book Is Gay" instructs children on how to use an app and upload their picture to connect with a local adult homosexual.

Usually, as these meetings go, the war of words is lost. However this time, there was a surprise move brought by Fairport parents and taxpayers. "After months of asking nicely, speaking to the board, writing letters, and other efforts, Fairport parents filed a claim against the board's insurance bond." Other claims in the past filed by parents have failed (i.e. unmasking issues). This time, "the school district is breaking federal and state laws, which are tied directly to the complaint. The Fairport residents are using existing laws such as endangering the welfare of a child, disseminating indecent material (child pornography) to minors, and others to make their case. This approach should have expensive consequences if the insurance company investigation finds the board has violated its oath of office, putting the insurance company at risk." The board was given five days to remove the materials.

Upon being served, five of the seven board members merely smirked. One commented, "We've been sued before." However this time, non-compliance could result in each board member *personally* having to refund the insurance company. If this strategy doesn't work, parents have other plans involving the police, sheriff, and our district attorney to move forward. We will publish the outcome in the May issue.

If this plan does work, it could send shock waves to school boards across the nation.⁽¹⁾

Fentanyl originating from China is pouring across our Southern border, and is now the leading cause of death among 18 - 45 year olds.⁽¹¹⁾

Are we at war? Are we being attacked on our own soil without using an invading army? (see *What Are China's Plans?* article on page 4)

Is some of this by design to collapse our country by the elites of the World Economic Forum who want world rule? Agenda 2030 tells of their plan to destroy our food supply,⁽¹²⁾ get us dependent on synthetic foods,⁽¹³⁾ or starve out the "useless eaters" as we non-elite have been called.⁽¹⁴⁾ The elite believe world population should be 500,000,000 (Georgia Guidestones).⁽¹⁵⁾ Current population is 7 billion.

Joe Biden, at a press conference in Brussels, Belgium, in March 2022 said that the sanctions imposed on Russia were going to cause food shortages around the world. Then he told how he and other European leaders met to discuss "how we could increase and disseminate more

(cont' on pg. 4)

NEW YORK IS GOING SOUTH

By Candy Giles & Barbara Sieber

NY is notorious for far-left ideological decision-making. Here is a partial list. Read it. Don't weep, but PROTEST, pray, and decree.

Gov. Hochul is hot for **Quarantine CAMPS** (Regulation 10 NYCRR 2.13) for anyone suspected of carrying an infectious disease—sick or not. Once inside, your release date is at the discretion of the government, unless you sue. The Regulation was struck down in court thanks to Attorney Bobby Anne Cox who took on the case pro-bono. Hochul is appealing! **Call 518-474-8390 to oppose!**⁽¹⁾

NYS wants a **mandatory vaccine database**. This easily lends itself to state-wide vaccine passports, could lead to loss of medical privacy, and be used to identify and punish people who disagree with the government. This bill is currently in the Senate. We need to keep it from reaching the Assembly! **Call Andrea Stewart-Cousins, Senate Majority Leader at 518-455-2585 to oppose.**⁽²⁾

Gov. Hochul is attempting to **mandate electric stoves** as the first step toward all-electric housing; natural gas, oil, and propane will be banned from multi-family and commercial buildings. Here are two problems: The electric grid is old and overwhelmed, and government can control your usage.⁽³⁾ Type this link to your browser to **oppose this mandate: www.nysenate.gov/petitions/george-m-borrello/say-no-gas-stove-ban**.

In March, NY Attorney General, Letitia James hosted a 'family friendly' Drag Queen story hour.⁽⁴⁾

NYS bail reform is a bust. Congresswoman Elise Stefanik said, "There are more violent criminals on the street...Bail reform has proven that career criminals and offenders...have made a mockery of the NYS court system."⁽⁵⁾ Here's a headline for you! Fox News: Feb 16, 2020—"NYC Subway Thief Thanks Democrats After His 139th Arrest, Release: 'Bail reform, it's lit!'"⁽⁶⁾

ELECTION INTEGRITY

By Laurie Ortiz

"The right to vote in a free and fair election is the most basic civil right, one on which many of the other rights of the American people depend."⁽¹⁾ Unfortunately, throughout history, the quest for power has motivated people to cheat. Despite this country being founded on Judeo-Christian principles, there are many instances of proven election fraud in our books.

The preamble of the New York Constitution states: We The People of the State of New York, grateful to Almighty God for our Freedom, in order to secure its blessings, DO ESTABLISH THIS CONSTITUTION.⁽²⁾

The founders' intent was to establish New York in righteousness, but that didn't deter corrupt people from interfering in the state elections. In 1844, 135% of eligible voters turned out for a New York election! 135%?!⁽³⁾ Today there's New York Citizen's Audit (NYCA), a citizen's group organized to perform open-sourced audits of the NY General Election. Here's a few fun facts:

1. **VOTER ROLLS MUST BE ACCURATE:** (registrations identified as suspicious, probably illegal, ineligible, or invalid are collectively described as 'irregular') Of these, 2,661,781 were found.
2. **VOTES COUNTED MUST BE FROM QUALIFIED ELECTORS:** Of these 740,396 counted, 42% SHOULD NOT have been certified.
3. **THE NUMBER OF VOTES MUST EQUAL THE NUMBER OF VOTERS:** NY officials appear to have certified an election with 338,356 more votes cast than voters who voted!⁽⁴⁾

Free & fair elections would be nice, but how do we get there? While it seems to be a losing battle, there are things we can do! **Did you know, 1 in 3 Christians do not vote on a regular basis?**⁽⁵⁾ Vote for candidates who align with your Christian values. Volunteer on your local committee. Offer your property for lawn signs. Pray for those in authority, against corruption. Remember, God is still on the Throne, but we have been established by Him to govern.

PITTSFORD REC CENTER HOSTS DRAG QUEEN STORY HOUR FOR CHILDREN

Join Moms for Liberty and other patriots as they stand outside to peacefully pray.

**Saturday, April 15, 2023
at 2pm, 35 Lincoln Ave.**

L@@KING FOR MORE

or interested in attending events with freedom loving Patriots?

Send an email to melaneyb72@protonmail.com

to receive the ROC Freedom Newsletter

We are a patriotic organization, committed to restoring the principles and values upon which America was founded, as stated in the Constitution and Bill of Rights.

We are not about the parties but about principled people standing up for Liberty!

We meet monthly. Join us! Our next meeting is **April 29, 2 - 4pm** at the Nutcracker **2159 Empire Blvd.**

WHAT ARE CHINA'S PLANS?

By Barbara Sieber

Four steps to conduct a "Soft War"⁽¹⁾, with no shots fired.

INFILTRATION 'The Long March Through The Institutions,' by Italian communist Antonio Gramsci, over 100 years ago, describes how a society could be slowly, overtly subverted without recourse to guns.^(2,3) To achieve this goal, propaganda centers called Confucius Institutes have been installed in 69 colleges in the U.S. with K-12 outreaches in schools.⁽⁴⁾ China has infiltrated our CIA, FBI, corporations, schools, courts, government, sports, entertainment, and media with ideology and personnel. Chinese Nationals are even coming over our southern border. Additionally, China now owns 383,935 acres of US farmland, as reported by Congressman Ronnie Jackson.⁽²⁾

COLLABORATION Our own president and his family have been linked to China. Senator Chuck Grassley has bank records that link the Biden's to the Chinese regime.⁽⁵⁾ Senator James Comer states he has evidence that Joe, Jim, and Hunter Biden were involved in a scheme to get China to buy Liquefied Natural Gas. A whistleblower is alleging that China is attempting to buy natural gas drillers. "They are trying to buy into our energy supply in a time of national crisis."⁽¹⁾

DESTRUCTION Biden allowed Chinese balloons to drift across our country for one week as they monitored sensitive military sites.⁽⁶⁾ High-altitude balloons have the capability to wipe out all electronic functions by using EMPs (electromagnetic pulses)⁽⁷⁾ This includes all military capabilities for defense purposes. Are they conducting trial attacks?

SUBJUGATION With so many on China's payroll, more who espouse socialism, the continuing attacks on free speech and the right to bear arms, and the acceptance of ESG scores being forced by corporations and banking,⁽⁸⁾ it appears that we are well on the way to a Chinese America. NYS Senator Kirsten Gillibrand attended college in Beijing and Taiwan and speaks Mandarin⁽⁹⁾...seems well situated to be a key partner in a Chinese America.

"But God." These words found hundreds of times in the Bible encapsulate the ongoing history of God's MERCIFUL interactions with sinful, misguided man. KEEP YOUR EYES ON JESUS.

COINCIDENCE? CONSPIRACY? CATASTROPHE!

(cont' from pg. 2)

rapidly, food shortages."⁽¹⁶⁾ Perhaps he misspoke, got confused, or as some prophesied, "leaders will begin to speak the truth inadvertently."

Even if everything mentioned above is "just a coincidence," powerful people will "never let a serious crisis go to waste"⁽¹⁷⁾ in their desire to use chaos for more control.
