OPENING PRAYER: THE FIRST CONTINENTAL CONGRESS

Submitted by Laurie Ortiz

O Lord our Heavenly Father, high and mighty King of kings, and Lord of lords, who dost from thy throne behold all the dwellers on earth and reignest with power supreme and uncontrolled over all the Kingdoms, Empires and Governments; look down in mercy, we beseech Thee, on these our American States, who have fled to Thee from the rod of the oppressor and thrown themselves on Thy gracious protection, desiring to be henceforth dependent only on Thee. To Thee have they appealed for the righteousness of their cause; to Thee do they now look up for that countenance and support, which Thou alone canst give. Take them, therefore, Heavenly Father, under Thy nurturing care; give them wisdom in Council and valor in the field; defeat the malicious designs of our cruel adversaries; convince them of the unrighteousness of their Cause and if they persist in their sanguinary purposes, of own unerring justice, sounding in their hearts, constrain them to drop the weapons of war from their unnerved hands in the day of battle!

Be Thou present, O God of wisdom, and direct the councils of this honorable assembly; enable them to settle things on the best and surest foundation. That the scene of blood may be speedily closed; that order, harmony and peace may be effectually restored, and truth and justice, religion and piety, prevail and flourish amongst the people. Preserve the health of their bodies and vigor of their minds; shower down on them and the millions they here represent, such temporal blessings as Thou seest expedient for them in this world and crown them with everlasting glory in the world to come. All this we ask in the name and through the merits of Jesus Christ, Thy Son and our Savior. Amen.

Reverend Jacob Duché Rector of Christ Church of Philadelphia, Pennsylvania September 7, 1774, 9 o'clock am.

OUR SOVEREIGNTY IS AT STAKE

By Barbara Sieber

The WHO (World Health Organization) made disastrous decisions that America is still reeling from with Covid 19...deaths, lockdowns, bankruptcies, and now a coming recession. President Trump wisely removed the U.S. from the WHO. Unfortunately, Trump was not able to resume his seat in the White House and Biden is now aggressive to give FULL authority to the WHO over *our* healthcare. **In late May, Biden, in Geneva, Switzerland, is desiring to ink the deal that gives a legal platform for a one-world government.** All power will go to ONE man, International Director Tedros. Michelle Bachman says, "He will have power over 194 nations. He will be able to declare an emergency, restrict our right to travel, and mandate vaccines, treatments, or lockdowns. We will have no right of appeal...once you give up power to the United Nations, it's very difficult to get it back." This is

all being done in advance to prepare for the next planned, bioweapon warfare executed worldwide pandemic such as Covid was.

Last year we faced the same disastrous situation, but one lone African country, Botswana, refused to go along with it.

Thankfully, all it takes is for one single nation to take a stand against it, and it cannot happen. PRAY, DECLARE, AND DECREE for at least one nation to refuse to go along with Satan's plans. Don't be silent. Contact your senator and fight for your country's independence. As Michelle Bachman states, "This is as big as it gets."

To watch a more in depth video, go to YouTube and search: "Sovereignty At Stake: Jimmy Evans & Michele Bachmann".

WHAT IS IN YOUR FOOD? By Ken Wolf

In the past, my wife had cancer. She no longer has it. We have changed our eating habits to help prevent it from coming back. We try to eat organic foods, avoid foods grown with pesticides, and avoid foods with artificial additives. Everyone has to decide on their "tolerance" to food manipulation.

Here are just some examples (*there are more*) that are worth looking at:

TWO VARIETIES OF PESTICIDES:

Glyphosate: 'Big Ag' (big agriculture) uses it as a weed killer in their fields. Here are several (not all) GMO crops that were made to be glyphosate resistant: corn, soybeans, cotton, and sugar beets. Glyphosate has been associated with non-Hodgkins Lymphoma and other cancers.⁽¹⁾ *Note that when a plant is glyphosate resistant, it means the plant can tolerate larger amounts of the pesticide. Farmers can apply larger amounts of the glyphosate to their fields. These GMO plants can take up large amounts of glyphosate and still live.*

Neonicotinoids: These are insecticides suspected of damaging bee colonies.⁽²⁾

FOOD ADDITIVES:

Aspartame: An artificial sweetener used in diet drinks and food. Some research suggests that aspartame increases the risk of type 2 diabetes, toxicity in the kidneys, and more.⁽³⁾

Food Coloring: A report released in April 2021 by the state of California confirmed the suspected belief that the consumption of synthetic food dyes can cause hyperactivity and other neurobehavioral issues for some children.⁽⁴⁾

LIVESTOCK

mRNA Vaccines have been used in pigs since 2018.⁽⁵⁾ These vaccines (which have not had proper testing) are now being developed for cattle and chickens.⁽⁶⁾

EDIBLE VACCINES

The future of vaccines may look more like eating a salad than getting a shot in the arm. UC Riverside scientists are studying whether they can turn edible plants like lettuce into mRNA vaccine factories.⁽⁷⁾

Other controversial items/additives to consider are preservatives, fluoride in our water, and antibiotics and hormones fed to livestock.

Buyer beware. Read labels. Your dollars affect the way your food is produced.

HAS EVENTBRITE ADOPTED THIS NEW 'CANCEL CULTURE'? By Candy Giles

A website that allows local people to set up events and sell tickets seems to pick and choose who purchases tickets. Two local events had many people make reservations only to have their tickets revoked by Eventbrite.

First, it was the Drag Queen Story Hour for children scheduled in Pittsford on April 15. Twenty-eight patriots reserved tickets and planned to quietly and prayerfully fill up chairs to protect children from the show. When suddenly, their tickets were canceled!

The second event was to be hosted by New York Citizen's Audit on April 15, presenting how they uncovered many violations of NYS election laws. So it's interesting that their sign-ups on Eventbrite were also canceled without a reason given. They chose to use another service and refused to be canceled.

A BOOK REVIEW by Candy Giles

THE COURAGE TO FACE COVID-19 By John Leake & Dr. Peter McCullough

Seldom does a non-fiction book keep me turning pages to read what comes next. Perhaps living through the event contributed to its interest. **The Courage to Face Covid-19** reads like a mystery novel.

The book is primarily the story of Dr. Peter McCullough, a world-renowned cardiologist and epidemiologist. He was the vice-chief of Internal Medicine and program director of Cardiology at Baylor Hospital, in Dallas, Texas. When Covid-19 hit he looked for early treatment options. Standard medical practice was to send patients home and if they got sicker, then it was to the hospital where the treatment was remdesivir and a ventilator. Mortality rates were high.

Dr. McCullough felt alone in his search for early treatment but did find some other like-minded doctors. Dr. Vladimir Zelenko and French Professor Raoult were two of the most well-known. They were using early treatments such as hydroxychloroquine, antibiotics, and ivermectin.

The book tells of many inexplicable obstacles the doctors faced. False “studies” and narratives about early treatments plus smears/lies about the doctors themselves shocked them.

Dr. McCullough made YouTube videos about successful early treatments and testified both in Congress and the Texas legislature. His hospital did not approve and eventually, he was terminated after serving years as an esteemed doctor.

Dr. McCullough is no right-wing conspiracy theorist. He voted Democrat. But he saw the collusion between the government, pharmaceutical companies, the media, and hospitals to make enormous profits from the vaccine. Hospitals were paid extra for every patient who tested positive, took remdesivir, or went on a ventilator. And the payout was especially large when someone died “from Covid”.

Looking back, I believe my 96-year-old mother was used for profit by Baylor Hospital. She went for internal bleeding, but “tested positive” for Covid day after day *without* symptoms. There she passed away, with ‘Covid’ written on her death certificate!

This book may infuriate readers, but the truth needs to come out. It contains facts proving that Peter McCullough and other doctors were right (*and on the right side of science!*)

DONALD TRUMP, POLITICAL PRISONER By Candy Giles & Barbara Sieber

On April 4, former President Trump was issued “an indictment based on non-crimes and politics that was (even) weaker than his critics thought,” said Tom Fitton of Judicial Watch.⁽¹⁾ The Federal Election Committee also has said there is no campaign finance violation as alleged.⁽²⁾

Former liberal Harvard law professor, Alan Dershowitz said, “There is no part of this case that isn’t weak.”⁽³⁾

Manhattan DA Alvin Bragg, (funded by George Soros to the tune of \$1,000,000) instigated this 34-charge indictment—making good on his campaign promise to “go after Trump in any way possible,” just as NYS AG Leticia James did.⁽⁴⁾

Bragg has accused Trump of process crimes relating to a payment made seven years ago, whose statute of limitations has expired. Trump's former personal lawyer, Michael Cohen, claimed he made hush payments to porn star Stormy Daniels, to cover up an affair she had with Trump—which Trump denies. The payment was allegedly made in 2016, before the election. Cohen himself said the President did not know about the payment, as it was made through a shell corporation. Former mayor and Trump attorney Rudy Giuliani argues there were no financial violations because this was a personal matter.⁽⁵⁾ Interestingly, the judge overseeing the case donated to the Biden campaign.⁽⁶⁾ The story is still developing.

This is really being done out of fear that Trump will run and win again. The court case is scheduled for December, in the midst of the election campaign season. Opponents are hoping to tarnish his image enough for him to lose the presidential nomination. A popular term for this is ‘Trump Derangement Syndrome’.

America has entered a two-tiered system of justice. It used to be defined as rich vs poor, now we define it as conservative vs liberal. “If there are two systems of justice, then there is no justice,” says political commentator Mark Levin.⁽⁷⁾

DIGITAL WHAT? Part 2 By Laurie Ortiz

In last month's issue of DYK, we took a brief look at some interesting developments in the U.S. regarding ATMs, bank failures, and legislation being pushed throughout the states that would set the stage for digital currency. As we look at the bigger picture, it becomes clear that what is happening is only one piece of a global takeover of the world's banking system, being orchestrated by the cast of characters introduced by Candy Giles in the October DYK ("The NWO").

With rising inflation here in the U.S., the stability of our dollar is quickly eroding to the point that it is losing its place as the world's reserve currency.⁽¹⁾ This situation has given China the incentive it needed to rise-up to claim that status. It has allied with countries that will depend on China's currency, the Yuan, as the standard. These are the BRICS nations: Brazil, Russia, India, China, and South Africa.⁽²⁾ As the world looks on, more countries are seeking to join BRICS. These include the UAE, Turkey, Mexico, Indonesia, Argentina, Saudi Arabia, and Egypt.⁽³⁾

But all is not as it seems. This financial unrest is part of an elaborate plan that's been in the making for decades, with the goal of global dominance by a crew of power-hungry "Elites," many of which are Americans. The Covid pandemic was the "springboard" to set the final stages in motion, while the CBDC is the vehicle being set in place to achieve this dominance, creating a surveillance state for maximum control of the masses.⁽⁴⁾ "Who controls the money controls the world.", Henry Kissinger⁽⁵⁾

GOD-INSPIRED STRATEGY

Part 2 By Candy Giles

Back in April we reported on parents in Fairport who filed a claim against the School Board's insurance bond—for having pornographic books in the K - 12 school libraries—breaking federal and state child endangerment laws. Graphic examples were presented to the Board with a notice to remove all obscene materials within five days.

With the examples given, one would think that the Board would be horrified and take action, but they did not respond. So, parents of the Fairport Educational Alliance submitted a claim to the School Board Liability Policy. They also presented the incriminating evidence to the Monroe County Sheriff, Todd Baxter, Dist. Attorney Sandra Doorley, and Fairport police chief for further investigation. They may also bring this to the local FBI and the Center for Missing & Exploited Children.

Does this matter if you're not in Fairport? YES, because other school districts may follow! At a Moms for Liberty meeting, the Fairport Educational Alliance presented its strategy (approx. 25 pages!) and encouraged all school district taxpayers to get involved in challenging pornographic books in schools. Although this is one of many issues in our public schools, THIS strategy has a strong possibility of success.

To learn more and/or get involved, start at the Facebook pages of Moms for Liberty and Fairport Educational Alliance.⁽¹⁾⁽²⁾
