DIGITAL WHAT? Part 3

By Laurie Ortiz

So here we are, June 2023, and already 119 countries are developing CBDCs (Central Bank Digital Currency), equaling >95% of the world's GDP.⁽¹⁾ Once these CBDCs are in place it will make global regulations easier to be implemented, which is what the WEF (World Economic Forum) needs to implement its "Great Reset."

WEF, DAVOS, G20...this group of global elitist climate crises "enthusiasts," working in tandem with the UN, are actively engaged in changing life as we know it. Believing that global warming is caused by humans, *we must be accountable for reducing greenhouse gas emissions produced by industry and our daily routines.*⁽²⁾ The goal is to achieve a 45% decrease in these gasses by 2030, and zero emissions by 2050 for life to continue at all.⁽³⁾ This sounds noble, doesn't it? But let's take a closer look at who's leading the charge. This excerpt from our October issue says it all: Klaus Schwab founded The World Economic Forum in 1971, at the recommendation of Henry

Kissinger. The phrase "You will own nothing and be happy by 2030" is their goal. Schwab's adviser is Yuval Noah Harare. On Yuval's website, he states, "History began when humans invented gods and will end when humans become gods."

Introducing 15-minute cities "...in which most daily necessities and services, such as work, shopping, education, healthcare, and leisure can be easily reached within a 15-minute walk or bike ride from any point in the city".⁽⁴⁾ The idea is to restrict the use of carbon emissions thereby reducing the overall carbon footprint. To accomplish, this everything will be assigned a value denoting the measurable amount of emissions, and your usage will be monitored. How? Surveillance cameras to track travel and mode of transportation, facial recognition technology, and CBDCs to monitor what, and where money is spent. Each person's account will be a government-issued digital "wallet" since all your "money" will be tied to the Central Bank.⁽⁵⁾ If you overspend, you will be fined.⁽⁶⁾ Antidote...invest a percentage of your income in gold! Haggai 2:8

ALBANY. SIGH.

By Barbara Sieber

Albany just passed two bills to the committee level, despite vehement citizen objections. A276b would eliminate parents' right to decide or know what vaccines their children are given. A7154 would make it permissible for medical lists to, without a patient's consent, be posted on the state database—a step towards forcing vaccine passports.⁽¹⁾ Thankfully, there are more committee approvals needed yet.

As a sign of a healthy democracy in past years, if you disagreed with your legislator, you could sign a petition, make a phone call. The politician would pay attention because they wanted your vote. Not anymore. The system is broken; the uni-party refuses to listen. It's assumed that re-election is assured. Such is the level of deception in our local, state, and national capitals.

You should still call your local politicians, even the governor, and voice your concerns. Local Assemblywoman Marjorie Byrnes, District 133, says you can still sway them. The Lord does work through His people, sometimes purposely limiting Himself through us taking action in His Name. "Where there is no vision, the people perish..." Proverbs 29:18. We are to use our voice and cast God's vision.

Someone with a larger voice is Jason McGuire, of New York Families, a research foundation for conservative causes. He spends a lot of time in the halls of the Albany Statehouse having conversations with representatives on both sides of the aisle, establishing relationships, hosting a monthly Tuesday prayer breakfast, and weekly Bible studies. He is a voice of influence. Support him! You can find him and read upcoming bills at albanyupdate.com, and newyorkfamilies.org.

IT'S ALL ABOUT THE CHILDREN

By Candy Giles & Barbara Sieber

85,000 migrant children have gone missing over the past two years. This is out of over 340,000 UNACCOMPANIED CHILDREN at the U.S. border since 2021!⁽¹⁾

In a testimony before the House Judiciary Committee on April 26, whistleblower Tara Lee Rodas said, "Whether intentional or not, it could be argued that the United States government has become the middle man in a large scale multi-billion dollar child trafficking operation that is run by bad actors seeking to profit off the lives of children." She testified that children were taken to slaughterhouses, factories, and restaurants to work night to pay their debt to smugglers and traffickers. Some were sold for sex. Ms. Rodas, a volunteer at the Office for Refugee Resettlement, expected to place children in loving homes. Instead, she discovered that the children were "trafficked through a sophisticated network." Children were sometimes delivered to transnational criminals.⁽²⁾

Sheenah Rodriguez, a whistleblower from The Alliance for a Safe Texas, testified about abuse in federal facilities at the border.⁽²⁾

Ted Gunderston, a former FBI agent was asked to investigate missing children. He "stumbled upon a very complex child sex trafficking ring that goes to the highest levels of state and federal government."⁽²⁾

A Georgia state senator, Nancy Schaffer, warned about sex trafficking through the foster care program of Georgia. Mysteriously she was murdered in 2010.⁽²⁾

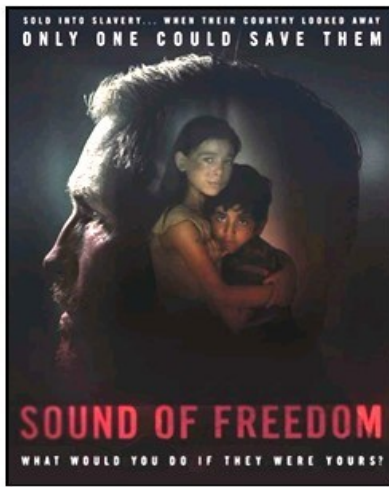

Why are children targets of evildoers?

Consider this quote from Vladimir Lenin, the first leader of the Soviet Union: "Give me four years to teach the children and the seed I've sown will never be uprooted." Or this from Adolf Hitler: "He alone who owns the youth gains the future." Communist and Fascist countries try to alienate children and parents, sometimes physically separating them, or having children turn against their own families. Those who want to rule undemocratically must destroy the family and religion. Starting with the children is the most efficient.

Morality and the family are the backbone of society and both have been eroded exponentially in the United States, as well as the well being of our children:

- The removal of Bible reading in America's classrooms in 1962 which gave consistent teaching in moral character and integrity.
- The simultaneous growth of the sexual revolution and LBJ's Great Society in 1964—whose payment to single mothers resulted in more fatherless homes.
- Church attendance started declining in the late sixties.
- Abortion was legalized in 1973 resulting in the death of over 60 million innocent babies. (Now some states contemplate abortion up to and BEYOND birth.) Satanists unashamedly consider abortion as a religious rite.⁽³⁾
- Currently, schools teach kids to question their very gender/identity.
- Washington State now removes children who want to transition from their parents who object.⁽⁶⁾
- The medical community embraces the permanent physical disfigurement involved with changing the sex of children from as early as three years old.⁽⁴⁾ Even our own Golisano Children's Hospital performs gender reassignment surgery for children as young as age 8.⁽⁵⁾
- Doctors are quick to offer ADD and ADHD medication to control classroom behavior. Psychotropic meds are readily offered for autism, OCD, and depression. Autism has increased astronomically according to Children's Health Defense run by RFK Jr.⁽⁷⁾
- Pedophilia is being redefined as Minor Attracted People (MAP), to make it more acceptable.⁽⁸⁾
- Public schools are teaching false history, promoting Marxism, denigrating capitalism, teaching sexual perversion, and emphasizing Diversity, Equity & Inclusion at the expense of education - resulting in the lowest ACT scores in three decades.
- Sugar and food dyes, linked to diabetes and ADHD, are marketed heavily to children with overly sweetened cereals, sodas, candies, etc. Look at the government's new food pyramid - drawn with sweets at the top.⁽⁹⁾
- The isolation brought upon by Covid-19 was devastating for our youth's need for social interaction and development.
- Social media is yet another frontier of destruction that preys on our children, sometimes resulting in anorexia, depression, suicide, and pushing transgenderism. Children can easily buy drugs and have them delivered within 30 minutes, sometimes laced with fentanyl.

"See that you do not despise one of these little ones..." Matthew 28:10 is a warning well taken.

Based on the true story of Federal Agent Tim Ballard, who quit his job, devoting his life to rescuing children around the world from human trafficking.

ALBANY. SIGH. (cont' from pg. 1)

According to Assemblywoman Byrnes, here is what NOT to do should you attend a legislative session—as this recently played out: A group that was present took a page from the activists' playbook and became hostile, 'got in' assemblyperson's faces, and attempted to influence the days' business through intimidation. Bearing no fruit, Ms. Byrnes told her constituents that they would have won more agreement had they stayed silent and let her do her business.

Silencing Truth Tellers By Candy Giles & Ken Wolf

The world was stunned on April 24 to learn that Fox News and Tucker Carlson were “parting ways.” He had become the most popular conservative commentator since Rush Limbaugh, and this seemed to be a terrible decision by Fox. Some believe it was part of a defamation lawsuit against Fox by Dominion voting machines. Dominion knew this could cripple the network.⁽¹⁾

It is also speculated that Tucker's outspokenness on conservative issues was behind Fox's decision. Tucker questioned vaccines, the Ukraine War, and hospitals doing transgender surgeries. He enraged Chuck Schumer by exposing the lies about January 6. He urged Americans to pray for the country 10 minutes daily. Faith issues are distasteful to Fox owner, Rupert Murdoch. Another theory is that

“woke” companies stopped advertising on Tucker's show, leading to a loss of revenue for Fox News.⁽²⁾

All righteous voices are under attack. Elijah Streams, Lance Wallnau, and many others have been “demonetized” on YouTube.

The left tried to cancel Joe Rogan (who is not a “conservative”) for interviewing Robert Malone, inventor of mRNA and critic of the Covid vaccine. Fortunately Joe was too big to cancel.

Some former liberals discovered the “danger” of becoming more conservative. Naomi Wolf and Sasha Stone completely abandoned “the dark side” and have endured leftist slander. (Their writing is available on Substack.)

Elon Musk, who is hard to peg as liberal or conservative, lost much leftist love for purchasing Twitter and reinstating conservatives and free speech.

Minorities who are “expected” to vote and believe a certain way and don't, are attacked. Tim Scott, a Black senator running for president, was viciously criticized by the ladies on the TV show *The View*. (a good sign for us who like him)

It's one thing when individuals, organizations, or the media try to cancel opinions and silence us, but the U.S. government doing it (and with our tax dollars) is illegal and immoral! The Media Research Center has just uncovered documents revealing “the Biden administration used a \$40 million grant program of the DHS... earmarked for anti-terrorism purposes, to target conservatives,” like Breitbart News and Turning Point USA.⁽³⁾

Lance Wallnau compared our time to Acts 13. The last verse is an example for us: “And the disciples were filled with joy and with the Holy Spirit,” for we know, “...it is God's will that by doing good you should silence the ignorant talk of foolish people.” 1 Peter 2:15. GOD will have the last word.
