GOD-INSPIRED STRATEGY

Part 3 By Candy Giles

The parental fight against pornographic material in the Fairport schools continues. A notebook full of incriminating evidence was presented to the Monroe County Sheriff, the District Attorney, and the FBI. Several weeks ago the FBI moved the material to the Violent Crimes Against Children unit. The NYS Police Attorneys in Albany are also reviewing the material. It is hoped that either the FBI or police would issue a criminal referral. At the same time, there is concern that our state AG Leticia James will hinder this moving forward.

It is informative to go to the Fairport Education Alliance’s website and Facebook page. It shows that the schools continue to offer disgusting books to children.⁽¹⁾ It also gives examples of similar issues in other local districts such as West Irondequoit⁽²⁾ and Spencerport.⁽³⁾

Looking for an alternative to public schools? Something new has just begun called The American Seekers Academy.⁽⁴⁾ There are also many homeschool groups locally that will help parents who want to keep their children home.

Parts 1 and 2 can be found in the April & May issues at bethelcf.com/dyk.

ENCOURAGEMENT IN CHALLENGING TIMES

By Candy Giles

As it seems that evil is growing stronger (or perhaps it was there but more is being exposed), we recommend a daily post by Dutch Sheets called “Give Him 15.”⁽¹⁾ On June 26 Dutch talked about how Satan tries to “wear down the saints” as we pray and work against the evil. Dutch reminds us that “we war FROM victory, not FOR victory. We do not have to re-defeat the devil; we enforce his defeat in Christ’s name.”

He then lists 16 victories, well worth looking at: Over 30,000 YOUNG people gathering in Oklahoma for evangelism and worship; Elon Musk overruling the censorship of “What is a Woman” being shown on Twitter; homeschooling has almost doubled; and The Jesus Revolution movie (about the revival among hippies and other young people in the 1970s) has reached millions worldwide and led to many salvations.⁽²⁾ In addition, a recent Washington Stand article states that 200,000 babies have been

HAVE YOU HEARD OF ESG?

By Ken Wolf

ESG is an approach to investing that recommends taking environmental, social, and governance issues into account when deciding which companies to invest in. It is the latest method to influence industry and society. The “E” is supposed to promote good environmental practices. The “S” is to uplift society and the brotherhood of man. The “G” is to create and enforce laws that enrich our society. ESG, however, necessitates monitoring (which has a price tag).

Organizations have devised “ESG metrics” to judge companies, but ESG metrics are not standardized. The company Blackrock influences industries to follow their versions of ESG by financing or withholding funds. NGOs (non-governmental organizations) use ESG scores to put political pressure on companies.

How is ESG used? Look at the recent Bud Light and Target marketing campaigns. Companies are yielding to the pressure. Also pay attention to the results of those campaigns, i.e., the recent boycotts, social media backlash, and billions lost.

Something else you can expect: carbon monitoring. Check your receipts. Investigate “carbon offsets.”⁽¹⁾ Your carbon footprint is being monitored. Your carbon footprint can be based on how much and how you travel (bicycle vs SUV), how you heat/cool your house, and how much meat you eat. The Swedish company Doconomy has launched a credit card that monitors the carbon footprint of its customers and cuts off their spending when they have hit their carbon max.⁽²⁾

In an ideal world, ESG could give us good feedback about the companies we deal with. But non-standardized and inadequate metrics, not to mention companies “greenwashing” their scores (giving false ESG metrics)—provide many opportunities for abuse.

saved from abortion since Roe v Wade was overturned last year.⁽³⁾ Our work is not over, our prayers are still needed, but know we are making a difference!

“...do not grow weary in doing good.” 2 Thessalonians 3:13

B-B-B-BAD TO THE BONE

By Laurie Ortiz

I ♥ NY! There is no lack of beauty here—from the ocean, lakes, rivers and waterfalls, to the mountains, valleys and rolling hills. Each of the four seasons carries its brand of beauty, lending itself to every outdoor activity one could want. Natural resources are plentiful—God’s provision for life.

Why then, since this state is so blessed, are so many leaving? Look no further than Albany, the seat of government, where we currently have “one-party rule.” Every branch of our state government is controlled by a “supermajority” of far-left politicians who subscribe to a Marxist/socialist ideology, essentially stating capitalism - bad, communism - good.⁽¹⁾ Don’t believe me? Look at these two items pending in Albany:

1. **10 NYCRR 2.13 “Isolation and Quarantine Procedures”** gives the DOH the power to isolate or quarantine anyone they deem to be a public health threat regardless of proof. This bill was struck down by the court as unconstitutional, but is being appealed by Gov. Hochul and AG James.⁽²⁾
2. **Enacted State Fiscal Year (SFY) 2023-24 Budget** “...includes provisions to phase out the use of fossil fuels in new buildings and invest in new renewable energy projects...” In short, they’re coming for our gas powered cars, homes, appliances, and even pizza ovens!⁽³⁾⁽⁴⁾

Additionally, New York State has the highest taxes IN THE COUNTRY,⁽⁵⁾ has been declared a “sanctuary state” for illegals, abortions, and gender “affirming care,”⁽⁶⁾ (In NYC it’s actually against the law to NOT use preferred pronouns!),⁽⁷⁾ and 15-minute cities are headed Upstate!

In 1887, British Parliamentarian Lord Acton wrote: “Power tends to corrupt and absolute power corrupts absolutely.”⁽⁸⁾

But, there’s still hope: PRAY, SPEAK OUT (by phone, emails, signing petitions), and most importantly, VOTE! We can fight this by electing God-fearing candidates to local offices—thereby saving our beautiful state!

IT’S ALL ABOUT THE CHILDREN Part 3

By Candy Giles & Barbara Sieber

“There are more people enslaved today than any other time in the history of the world.”⁽¹⁾

“It is the Holocaust of our lifetime,”⁽²⁾ says Tim Ballard, child trafficking rescuer, and founder of OUR, Operation Underground Railroad.

Statistics note that 800,000 children go missing yearly in the U.S.; 230,000 in the U.K.; 100,000 in Germany; 50,000 in Canada—while many babies are purposely bred, with no birth certificate, making them untraceable.

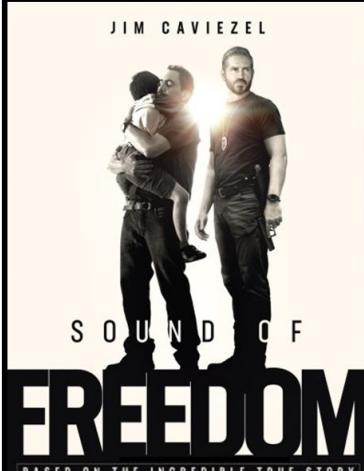

Recently, Tim Ballard went to Ukraine on a mission to find 20 kids but instead was handed a list of 10,000. Traffickers take advantage of wars, loose borders, and natural disasters to capture victims.

Children are being trafficked worldwide (more in the U.S. than any other nation) for sex, slave labor, body parts, and adrenochrome. Estimates are 2 - 8 million children are trafficked yearly. These children suffer an early death due to the horrific abuse they endure, dying within 2 - 6 years after the abduction.⁽²⁾

In an interview on Elijah Streams,⁽³⁾ Jim Caviezel—blacklisted Hollywood actor for his starring role as Jesus in “The Passion of the Christ” and who portrays Tim Ballard in the just-released movie “The Sound of Freedom” said, “Some babies are bred for satanic rituals, some for organ parts, and some for adrenochrome.” Sadly, harvesting adrenochrome from babies (which is more potent by frightening them) is not another conspiracy theory. He identifies adrenochrome as an elite drug used because of its purported qualities to make the user younger. And the high is ten times more potent than heroin.⁽⁴⁾

Caviezel also states that those who are invited to the private, higher elite circles, with their sex parties and trafficking, are threatened if they choose to decline.⁽²⁾ Therefore powerful people (in Hollywood, government, media) want to silence him. Permanently. He’s asks for prayers for his family.

What can YOU do? Visit the OUR website to join the effort and support financially, attend the Sound of Freedom movie, pray.

The poster for the movie "The Sound of Freedom" features Jim Caviezel in a dark t-shirt and pants, holding a young child. The text on the poster includes "JIM CAVIEZEL" at the top, "SOUND OF FREEDOM" in large letters in the middle, and "BASED ON THE INCREDIBLE TRUE STORY" at the bottom.

The story of Tim Ballard, a Federal Agent who quit his job, devoting his life to rescuing children from around the world from human trafficking.

Only in Rochester Theaters Until Thursday, July 14

LOOK! SQUIRREL!!

By Barbara Sieber

It started with the Russian Collusion hoax waaaaay back in 2016, when Hillary Clinton attempted to discredit President Trump in his initial run for office so that she would win the presidency. (1)

It continued with Hunter Biden dropping off his laptop in April of 2019, never returning to pick it up. When the computer repairman opened it up to repair, he was horrified by what he found... treasonous business dealings, prostitution payoffs, and more. (His honesty resulted in loss of his business and bankruptcy.)⁽²⁾

Here we are, entering a presidential election year in the next six months. The Democrat Party is terrified of President Trump winning again and revealing the swamp creatures of Washington, DC. The same day the House Oversight Committee accessed suspicious reports confirming potential corruption within the Biden administration, Soros-backed NY DA. Alvin Bragg, indicted Trump on 34 counts of falsifying business records.⁽³⁾

Weeks later, the same day that the House Committee got documents showing proof of a \$5M Ukrainian payout to *both* father and son,⁽⁴⁾ Trump was indicted AGAIN on 37 counts of paperwork charges. He's accused of the same thing Biden did, holding records—which Trump legally could, yet Biden's FBI and DOJ ignore their boss' questionable practices.⁽⁵⁾ Congressman Comer is now confident that \$20-30M is a more accurate sum.⁽⁶⁾

Incidentally, in 2016, on tape, VP Biden bragged that he got the Ukrainian prosecutor fired who was looking into his shady dealings with the Ukrainian president.⁽⁷⁾

The tragic end of the lost submersible, the Titan, carrying five people, was known to the government five days before they released information revealing its demise.⁽⁸⁾ During that same period, Hunter Biden pled guilty to federal tax offenses and avoided prosecution on a separate gun charge in a deal with the Justice Department.⁽⁹⁾ For the record, Black rapper Kodak Black was sentenced to 46 months in prison for the same crime.⁽¹⁰⁾

And now, ALIENS HAVE LANDED. For decades, all UFO sightings have been denied.⁽¹¹⁾ True or not, the government has truly changed it's tune.

So...detect a pattern here?

IS IT WISE TO WANT TO BE "SMART"?

By Ken Wolf

Who wants a smart meter? (The new electric meters RG&E and National Grid will be installing on our houses soon.) I don't want one. Smart meters will transmit your electric usage up to four times an hour to an antenna in your area. This removes the need of meter readers and estimated bills. And with accessories you can tell what items in your household are energy hogs. Yes, these are reasonable attributes.

My objections: Privacy and health are my main concerns. I want my energy usage private and not broadcasted. I don't like 24-hour-a-day RF (Radio Frequency) signals going through my house. There has not been enough research into RF to make me believe it is safe. And paranoid me wonders if, down the road, they can send a signal that turns off my power?

You can opt-out by writing a letter to RG&E and telling them you want to keep your "old" meter or call 866-734-3821. I wrote my letter and then received a letter and a phone call from them telling me they received it and will honor my request. But I will be charged \$11.86 a month for keeping my "old" meter even if I am sending in the reading myself.

And I recently received a piece of mail from NY State Senator, Samra Brouck. She and our friends in Albany passed the "Build Public Renewables Act." It will phase out fossil fuel power production by 2030. RG&E has already petitioned to be able to raise electric rates. Just speculation here, but with the push for electric cars and appliances, solar fields and wind power isn't going to make it. We will probably be importing electricity. I wonder how much our electricity will cost then?

A WORD GIVEN FROM THE LORD FOR CHRISTIANS OF THIS TIME

Submitted by Candy Giles

"The Lord said He's building an army to finish his work and that we are in boldness training. We cannot be quiet. We cannot sit home and wait for everyone else to do the work. He needs us on the front line. We must not be afraid to stand up to the enemy. Our enemy counts on us to be nice, to be quiet. Everyone is in the army. You may not sit still. Find your gap in the wall to fill. Stand up. Speak up."
